

My Summer Vacation

Last week, my family and I went to Taiwan for six days.

I was very excited.

On the first day, we went to the night market. There was a lot of gourmet food. I ate very long French fries. They were very tasty.

The next day, we went to Jiufen and bought some souvenirs. The souvenirs we bought there were all very lovely. I was delighted because I could drink my favourite bubble milk tea.

Then, we went to the Kenting Marine Life Museum. There are lots of marine animals such as sharks, clownfish, penguins and white dolphins. You can see diverse marine species there.

I was very happy during the trip. I'm looking forward to going there again.
